Subject: Re: if pregnant women are urged not to smoke or drink they also should not be taking vaccines

public comment on federal register

tokeep babies and pregnant women safe, they should take nothing out of the ordinary when [pregnant.no](#) drinking alcohol, no taking drugs, no taking vaccines, no thing unusual into the body. keep it pure .i believe that keeps the pregnant women best suited for bringing about the healthiest baby she can have. this commetn is for the pubilc record.i think you are hurting american women and babies with your preaching vaccines to pregnant women.

vaccines hurt some bodies and they can injure or kill. the baby is developoing in the most marvelous way and some influences can mean the developoimnt of a brain does not take place properly but is affected by the substance ingested. this comment is for the public record. keep the body pure. jeanpubliee jeanpubilc1@gmail.com
