

The Role of Dissemination and Implementation Science to Strengthen Research in NICHD Populations

NICHD Office of Global Health

February 24, 2021

12:00 – 1:30 p.m.

Welcome

Purpose: To provide an overview of implementation science as a research methodology, present examples of the benefits of implementation science for NIH research and share dissemination & implementation research (D&I) training opportunities.

Goal: To foster conversation about D&I at NIH and gaps for future research funding.

Challenge: How can we consider implementation science from basic science to clinical research to translation and dissemination and implementation research?

- A paradigm shift for science from bench to bedside to the global village.

Implementation Science

*Bridging Research,
Practice,
and Policy*

NIH Staff

Overview of Implementation Science and Trans-NIH Initiatives

Dr. Gila Neta, Ph.D., MPP, Program Director, Implementation Science, Division of Cancer Control and Population Sciences (DCCPS), National Cancer Institute (NCI)

Dissemination & Implementation Science Training Opportunities and Future Directions

Dr. Dara Blachman-Demner, Ph.D., Health Scientist Administrator Office of Behavioral and Social Sciences Research (OBSSR)

NICHD Grantees

Addressing Obesity in Preschools through a Multi-Level, System-Focused Intervention

Dr. Roshan Bastani, Ph.D., Professor, UCLA Fielding School of Public Health, Director-UCLA Kaiser Permanente Center for Health Equity, Co-Director-UCLA Center for Cancer Prevention and Control

Implementation Science to Close the Know-Do Gap in Maternal, Newborn and Child Health

Dr. Kenneth Sherr, Ph.D., MPH, Professor, Department of Global Health, University of Washington

Dr. Quinhas Fernandes, M.D., Mozambique Ministry of Health & Department of Global Health, University of Washington

Panel Q&A

***Moderator: Dr. Marion Koso-Thomas, M.D., MPH,
Medical Officer, Pregnancy and Perinatology Branch
(PPB), NICHD***

- **What are the overall gaps in D&I research for domestic and global health (i.e., maternal and child health, nutrition, reproductive health, developmental disabilities, rehabilitation)?**

Thank You
